Moayed Eisa

.Net Developer

✉ moayed.abdulhafiez@gmail.com   📞 +971569233853   📍 Dubai , UAE

Skills

Server Applications	Communication Skills
Problem Solving	Amazon Web Services
.NET Core Development	Version Control System - Git
Front-End Development	SQL Databases
Java Programming Language	Cross-platform Development - Integration
API Development	

Profile

I'm Dedicated Backend Developer with over +4 years of experience in building robust, scalable APIs and web services using .Net Core and C#.

I'm well-versed in REST API development and have a strong understanding of front-end technologies (HTML,CSS,JavaScript), which allows me to work on full-stack projects with a comprehensive perspective.I have a proven track record of designing scalable, clean, maintainable,robust, and secure backend architectures, and I'm adept at database modeling and optimization using PostgreSQL and MySQL.

Professional Experience

Online Auction Company, Backend Developer   10/2022 – present
Ryiadh, Saudi Arabia

- Participate in the entire application lifecycle, focusing on coding and debugging
- Write clean code to develop functional web applications
- Troubleshoot and debug applications
- Perform UI tests to optimize performance
- Manage cutting-edge technologies to improve legacy applications
- Collaborate with Front-end developers to integrate user-facing elements with server side logic
- Gather and address technical and design requirements
- Provide training and support to internal teams
- Build reusable code and libraries for future use
- Liaise with developers, designers and system administrators to identify new features
- Follow emerging technologies

Unisoft for Applications and Systems, Backend Developer   05/2020 – 10/2022
Khartoum, Sudan

- Creating the core backend functionalities of Mobile and Web Applications , using modern technologies like .NET Core Framework
- Design robust APIs to support mobile and desktop clients
- Manage and optimize scalable distributed systems in the cloud
- Optimize web applications for performance and scalability

- Develop automated tests to ensure business needs are met, and allow for regression testing

Sudan's Ministry of Higher Education and Scientific Research -Information Center Department, Junior Software Developer

04/2019 – 10/2020
Khartoum, Sudan

- Compile and analyze data, processes, and codes to troubleshoot problems and identify areas for improvement.
- Collaborating with the front-end developers and other team members to establish objectives and design more functional, cohesive codes to enhance the user experience.
- Developing ideas for new programs, products, or features by monitoring industry developments and trends.
- Recording data and reporting it to proper parties, such as clients or leadership.
- Participating in continuing education and training to remain current on best practices, learn new programming languages, and better assist other team members.

Education

Bachelor's Degree in Information Technology, Al-Neelain University

2014 – 2020
Khartoum, Sudan
